

1. **Credit Fees in Price for Mortgages with Special Attributes** – This Credit Fee in Price Matrix sets forth the Credit Fee in Price amounts and/or Credit Fee in Price rates and credits applicable to certain Mortgages that, because of the type of mortgage product, loan purpose, Mortgaged Premises or other attributes (the “special attributes”), are subject to a Credit Fee in Price or receive a credit for a Credit Fee in Price pursuant to the provisions of the Guide. This Credit Fee in Price Matrix also sets forth a maximum total amount that may be assessed on certain Mortgages, such maximum total amount otherwise referred to as a “cap.”
2. **Credit Fees in Price are Cumulative** – A particular Mortgage that has various special attributes may be subject to more than one Credit Fee in Price. The cumulative Credit Fees in Price applicable to such a Mortgage will be the sum of the Credit Fees in Price required with respect to each of the special attributes of the Mortgage.
3. **Payment of Credit Fees in Price and application of credits for Credit Fees in Price** – Credit Fees in Price are paid and credits for Credit Fees in Price are applied in accordance with the provisions in Chapter 6303 of the Guide. However, for Mortgages sold through Loan Selling AdvisorSM under the Cash Program, Credit Fees in Price and credits for Credit Fees in Price will be netted from the proceeds due to the Seller at funding.
4. **Mortgage Eligibility** – Sellers should review the Guide and their other Purchase Documents to determine the eligibility of Mortgages with specific special attributes for which a Credit Fee in Price rate or credit for a Credit Fee in Price is shown on this exhibit.
