305 538 2000
4441 COLLINS AVENUE
MIAMI BEACH FL 33140
FONTAINEBLEAU.COM

The safety and well-being of our guest and team members are our top priorities. We will continue to aggressively adhere to the guidelines and recommendations provided by the CDC, the Florida Department of Health, and Miami-Dade County regarding the steps we take to mitigate mosquito breeding and the spread of Zika. Specifically, we have taken and will continue to take the following steps:

1. Spraying, fogging and misting all public areas (inside and outside) regularly to control mosquito populations. Additionally, the City of Miami Beach has been treating the storm drains on our property.
2. Chlorinating and monitoring swimming pools.
3. Maintaining strict and preventive grounds keeping practices, *i.e.*, no standing water on property.
4. Providing employee awareness training through internal communications and bulletins.
5. Offering EPA-approved insect repellent complimentary upon request, throughout public spaces and/or in the gift shops for purchase.

We will continue to remain vigilant in communicating with officials from Miami Beach and the State of Florida regarding the Zika virus and as we learn more will communicate with our team members to provide guidance on the prevention of Zika.

Scott Flexman
Vice President of Sales & Marketing
